## B. Amendments to the Claims

Please cancel claims 2-5 without prejudice or disclaimer.

Kindly add new claims 6-15 as follows:

- 1-5. (Cancelled)
- 6. (New) A structure comprising:

an electrical conductor;

an insulator formed on the electrical conductor; and

an anodized layer formed on the insulator,

wherein the insulator has a first group of holes and the anodized layer has a second group of holes, and

wherein holes of the first group is connected with holes of the second group, respectively.

- 7. (New) The structure according to claim 6, wherein the electrical conductor consists of Si.
- 8. (New) The structure according to claim 6, wherein the insulator consist of  $SiO_2$ .
- 9. (New) The structure according to claim 6, wherein the insulator contains a resist.

10. (New) The structure according to claim 6, wherein the holes of the first group extend to the electrical conductor.

11. (New) A structure comprising:

an electrical conductor;

an insulator formed on the electrical conductor; and

an anodized layer formed on the insulator,

wherein the insulator and the anodized layer have columnar parts, and wherein a bottom of the columnar parts contacts the electrical conductor.

- 12. (New) The structure according to claim 11, wherein the columnar parts is composed of a magnetic material.
- 13. (New) The structure according to claim 11, wherein the electrical conductor consists of Si.
- 14. (New) The structure according to claim 11, wherein the insulator consist of SiO<sub>2</sub>
- 15. (New) The structure according to claim 11, wherein the insulator contain a resist.
